**Importance:** High

Hi there,

Ok, we are in a do loop here. The edits Elliott gave us were in an old version of the U&O FIP that Rick Vetter had made comments on. So now Claudia is having to go back and transfer Elliott's comments into the current version of the FIP in addition to all of the work folks will need to do to address Elliott's comments. Now, as you can see below, Bruce and others are going to look at Elliott's comments, and they will be unable to do so until potentially next week. I cannot emphasize enough, we are out of time on this. If senior management wants this FIP final this year, we need help shaking it loose and will continue to need help to get it through OAR, OP and OMB.

Thanks in advance for your attention to this item,

Dee

Thanks for the cc, Elliott. We'll look at your edits also, but it could be late this week or early next week, given the extreme efforts here on the NSPS. I shared your comments with David Cozzie and Mike Koerber.

All – attached are my additional comments (there may be a version control issue). Some may be a little cryptic so we may need to discuss. I already have shared some of these. A few things to highlight:
